March 2009

Dear Colleague,

Logbooks for On Track Plant Operators.

With the introduction of Network Rail's new OTP Operator training framework from March 30th 2009 there is a requirement for OTP Operators to maintain a logbook with work experience entries.

It is Network Rail's intention to produce a bespoke OTP Operators logbook in the near future but until such time as this is available the existing Machine and Crane Controller Logbooks are suitable for use. Simply enter (MC / CC or Operator) at the top of the 'Description of work' box on the work experience sheets.

OTP Machine and Crane Controller Logbooks are available from;
